Cremation Service:

A direct cremation, is a non-attended cremation without a formal funeral ceremony.

You can choose to have a service before cremation in a chapel/church/home or outdoors.

Cremation is often a more affordable option and a member of our Barefoot Team will bring your loved ones ashes back to you in person, usually within a week of cremation.

Burial Service:

Burial as a funeral option is still preferred by many individuals and families. We work with councils and local services to ensure a peaceful burial.

We care about the environment, at Barefoot Funerals we are proud to offer an extensive range of eco-friendly, sustainable funeral options.

We offer a diverse range of coffins to ensure you find exactly what you are looking for.

Our goal is to help you create a unique, personalized, farewell ceremony that honours your loved one's life.

We believe in giving our client family's the 'gift of time', We will listen to your concerns and respond with affordable, tailored options.

Dying and death is a natural process. Our philosophy is to allow families to reclaim the rightful control of the dying process and care of the deceased. We do as little or as much as you need to be supported in your choices.

Barefoot Funerals is about choice. We use our knowledge, care and professionalism to guide you and your family through a kind and gentle death experience. We support your choice, allowing you to focus on self-care and celebrating the life of your loved one.

Many people ask us about our name - barefoot - to me it is about leaving as light a footprint as we can when we walk our earth, and leave our earth.
